Executive Engagement,
Storytelling, Research &
Insight Synthesis

Profile

Service design leader with **10+ years** facilitating executives and cross-functional teams to decisions in regulated, high-trust environments — healthcare, retail, and global marketplaces. I run the workshops, journey maps, and service blueprints that **turn complex policy, operational, and regional ambiguity into scalable, decision-ready service systems**.

Trusted partner to product, engineering, operations, analytics, and C-suite stakeholders across multi-market launches. Strong track record **designing and facilitating hands-on sessions that build alignment, make design tangible to non-design audiences**, and connect customer needs to clear business outcomes.

Experience

- **Bynd Ltd**
📍 London, UK
Dec 2023 – Present
Principal Service Design & Strategy Lead
 - Led **0→1 service design** for the launch of advanced therapies across **10+ markets**, running cross-functional workshops with clinical, operational, and commercial leaders to co-create digital journeys, clinical workflows, and patient-facing delivery.
 - Facilitated **C-suite alignment** on a scalable service model connecting customers, care providers, and internal teams across a high-risk, compliance-heavy ecosystem — translating design rationale for non-design audiences.
 - Helped a global technology client adopt **AI-enabled decision support**, cutting manual effort by **40%** while improving reliability and compliance.
 - Coached cross-functional teams in **service blueprinting, journey mapping, and design thinking** — strengthening how product, operations, and delivery make decisions together.
- **Design Doings LTD**
📍 London, UK
May 2023 – Dec 2023
Freelance Design Lead
 - Provided independent consultancy in **service design, design research, and CX strategy** to address complex challenges in the financial sector.
- **Publicis Sapient**
📍 Copenhagen, DK
Dec 2022 – May 2023
Associate Design Director
Aug 2021 – Dec 2022
Service Design Lead
 - Designed and facilitated a **global-to-local delivery framework** for a regulated healthcare client, helping regional executives adapt shared service patterns to local needs while maintaining consistency, governance, and quality.
 - Built and ran an **accelerator programme** combining hands-on design sessions, prototyping, and executive co-creation — rapidly scaling service initiatives and cutting **time-to-market by 25%**.
 - Established the **Nordic service design practice**, evangelising structured methods (journey mapping, blueprinting, design thinking, prototyping) across multidisciplinary teams to scope, win, and deliver complex transformation programmes.
- **Net-a-Porter Group**
📍 London, UK
Aug 2019 – Jul 2021
Senior Service Designer
 - Redesigned the **returns platform** across customer journeys, internal tools, and support workflows — lifting data utilisation by **50%**, cutting incorrect manual data work by **80%**, and reducing returns by **10%**.
 - Established **scalable, repeatable service design guidelines** across product and service touchpoints, adapting experiences to category- and market-specific needs while keeping the wider brand ecosystem consistent.
- **Fjord, Accenture**
📍 London, UK
Apr 2019 – Jul 2019
Senior Service Designer
Aug 2015 – Mar 2019
Service & Interaction Designer
 - Led **ethnographic and regulatory research** and facilitated synthesis workshops with senior client stakeholders, translating policy, user, and operational insights into service and product opportunities for **international healthcare market entry**.
 - Designed and facilitated **co-creation sessions** with public sector teams, redesigning employee and operational services to improve cross-department handoffs and service reliability.
